

BUILDING SKILLS CLASSES

THIS PROGRAM IS DESIGNED FOR:

- Job seekers who would like to work in the construction industry, but don't know which area to specialize in.
- Maintenance workers who want to improve current skills and learn new ones.

SUCCESSFUL CONSTRUCTION CRAFTSMEN ARE PEOPLE WHO:

- Prefer detailed, hands-on work.
- Are observant problem solvers.
- Feel comfortable developing and implementing creative solutions.

YOUR WORKPLACE ENVIRONMENT:

- Outdoors, exposed to the weather
- Performing general physical activities such as climbing, lifting, balancing, moving building materials, etc.
- Repairing and maintaining mechanical equipment

YOUR FUTURE:

Construction workers earn an average of \$20,000 - \$47,000+ a year. Most construction jobs also include benefits such as health coverage and retirement plans.

OTHER WORKFORCE EMPLOYMENT TRAINING OPPORTUNITIES

BPS Adult Education Division provides many other courses for individuals interested in construction oriented training:

- AutoCAD & Blueprint Reading

COURSE OUTLINE

This ten week, 120 hour course covers all of the essentials to start you on the path to proper construction skill training. While attending, you will learn:

HVAC

Experiment with conduction, convection, and radiation. This section also covers identifying air conditioning components.

ELECTRICAL

Perform outlet, switch, light, and breaker installations.

PLUMBING

Perform installations for pipe, sink, waste, drain, and vent components.

DRYWALL

Install, tape, and plaster a drywall application

MASONRY

Construct brick and block masonry wall sections.

WALL FRAMING

Frame a wall with window and door cut outs.

PAINTING

Prime, paint, and stain a variety of casing, wall, and trim components.

CONCRETE

Prepare, form, reinforce, pour, and finish a concrete slab and curb.

FINISH CARPENTRY

Install windows, a pre-hung door, door casing, baseboard, and crown molding.

HAND + POWER TOOLS

Safe use of hand tools, power tools, and equipment.
